GIANLUCA DeROSSI

Product Manager · Growth, AdTech & Data-Driven Product Development

gianlucad1993@gmail.com · 203-984-9959 · linkedin.com/in/gianluca-derossi · Harrison, NJ (NYC Metro)

Product Manager with 4+ years of experience **driving growth, retention, and operational efficiency across SaaS and advertising platforms — with a consistent track record of identifying problems nobody assigned me, building solutions, and driving measurable outcomes.** Founded Ellucca (ellucca.com), a live AI-powered film recommendation platform built entirely solo using Claude Code and the Claude API, trademark pending. Active investor for five years with experience in SQL, data infrastructure, and building automated systems from scratch. MBA, Manhattan College.

PROFESSIONAL EXPERIENCE

Founder · Ellucca (ellucca.com) *Jun 2026 – Present*

- **Founded and shipped a live AI-powered film recommendation platform entirely solo** using Claude Code and the Claude API — designed, built, and launched the full product including personalized recommendations with reasoning explanations, recommendation strength scoring, Tonight's Vibe mood filters, Friends system with taste match percentages, group watching, and Watch Later list
- Acquired custom domain, filed for trademark, and launched at ellucca.com — demonstrating end-to-end product ownership, AI fluency, and founder-level initiative from 0 to live product with real users

Product Manager — Influencer Program · Real Grader *Mar 2024 – Mar 2026*

- **Reduced monthly churn from 9% to 6%** while growing subscribers from 400 to 1,500 by identifying root cause friction through a self-built cancellation form and exit data system — pushed back on leadership's phone call approach, collected three months of structured data, identified the core problem, and drove the cross-functional response
- **Sourced and onboarded GetMagic** as an international staffing partner — researched five vendors, weighed pros and cons, interviewed three, and hired at $10/hr to provide one-on-one social media onboarding for struggling subscribers; built automated welcome webinar registration and weekly group onboarding sessions
- **Managed white-label SaaS partnership with Social Cloud** via bi-weekly syncs, coordinating escalations to co-founders, both CEOs, and engineering teams; became a direct input into Social Cloud's product roadmap based on Real Grader client insights
- **Evaluated Cloud Campaign** as a potential replacement partner — ran a structured assessment, interviewed their team, tested with live clients, and delivered an honest recommendation against switching; used the process to push Social Cloud toward building AI posting features
- **Replaced a failing content function** — after the CEO's plan fell through, I went directly to the co-founder, secured a $1,300-$1,700/month budget, sourced three Fiverr candidates, hired the best at $1,500/month, trained her, and built her process; errors dropped to near zero and client complaints stopped
- **Built a subscription break-even model** using Zoho Analytics and SQL via ChatGPT, showing churn data and average lifecycle against revenue — the CEO used it to set weekly and monthly sales goals
- **Built an automated brand partnership revenue sharing system** — worked with the CTO to implement brokerage tracking at point of purchase, created an Airtable base with unique partner IDs synced to Zoho Analytics daily, and wrote SQL queries to auto-calculate monthly payments for each brand partner

Product Manager — Google Local Ads · Real Grader *Nov 2021 – Mar 2024*

- **Built automated client reporting infrastructure** — created a master Google Sheet with per-client view-only report sheets that auto-populated via customer ID formula, sent personalized monthly performance emails with recommendations and a one-on-one booking link; saw a 20% drop in support requests and 90% reduction in performance inquiries; system scaled from 30 to 100+ clients without a rebuild
- **Built an expiration alert automation** using Zapier and Airtable to monitor client license and E&O insurance expiration dates — triggered immediate email alerts so I could proactively reach out before any client's ad went down; nobody asked me to build this
- **Reduced project turnaround time by 20%** through workflow automation and cross-functional coordination across product, engineering, and operations
- Presented 30-60-90 day strategic growth plans to CEO, CFO, and COO, translating complex data into clear executive narratives that guided product and business decisions

Success Coach · Real Grader *Feb 2021 – Nov 2021*

- **Built the company's onboarding program from scratch without being asked** — one month into the role, heard we were hiring more coaches, volunteered to design and run training myself; built test accounts for all eight platforms, a detailed checklist, and a structured timeline covering system training, shadowing, and supervised live calls; every coach hired after me went through this program

KEY PROJECTS

- **Ellucca (ellucca.com)** — Founded and launched a live AI-powered film recommendation platform with trademark pending, built entirely solo using Claude Code and Claude API. Features personalized recommendations with reasoning, strength scoring, taste match, Tonight's Vibe mood filters, Friends system, and group watching.
- **Subscription Break-Even Model** — Built a Zoho Analytics SQL model showing churn and lifecycle data against revenue; CEO used it to set sales goals. Separately built a full brand partnership revenue tracking system auto-calculating monthly payments across all partners.
- **Automated Client Reporting System** — Google Sheets infrastructure serving 100+ clients with personalized monthly reports, auto-populated by customer ID, requiring zero ongoing maintenance after onboarding a new client.

TECHNICAL SKILLS	EDUCATION

AI & Development: Claude Code, Claude API, ChatGPT, LLM Prototyping, Prompt Engineering
Data & Analytics: SQL, Zoho Analytics, Dashboard Design, Data Visualization, KPI Design
Automation: Zapier, Airtable, Google Sheets, Ticketbox
Product: Roadmapping, 0 to 1, Customer Discovery, PRD Writing, Partner Management
Advertising: Facebook Ads, Google Local Service Ads, DoubleClick
Tools: Asana, Microsoft Suite, Zoho CRM, Fiverr
